

Linear Wood and Grille Ceilings

A naturally beautiful solution.

The Authentic Beauty of Wood

Create an inviting space with a ceiling system that brings the added warmth and depth of wood to your design. Decoustics new Linear Wood and Grille Ceilings enrich any space with outstanding looks and ease of access. Now you can complement your designs with a ceiling that produces an environment that looks truly natural.

A Fit for Your Project

With many finishes, sizes and configurations available, it's easy to incorporate a beautiful wood ceiling into your projects. You can choose from cherry, beech, maple and ash veneers – or specify a custom veneer finish that perfectly suits your design. FSC® certified wood available.

Effortless Access

A convenient, heavy-duty T-bar grid system lets you add the distinctive charm of a wood ceiling without compromising on ease of installation and access. Configurations are available that provide complete access to the plenum.

Bring the Look of Wood to Your Next Project

Ask how you can add the authentic wood look to your designs, while delivering outstanding performance and ease of access.
